c. To ban the business dealing with the Bidder who engaged in such practices either indefinitely or for a specified period of time.
SECTION III
SCOPE OF WORK
3.1 **Scope of Work**

JMRC plans to create online payment ecosystem through Vendor(s) to motivate metro smart card users to do online recharges through third party website and/or mobile application. The vendor will incentivize smart card users by doing marketing campaign so as to motivate them to do high value online recharges. JMRC today has an average ridership of 25 thousand passengers daily and a fair percentage of passengers are using online platform for their ticketing requirements. The upward scaling of the online ecosystem will increase the customer base on the vendor’s platform, thereby increasing the volume of the transaction involving other offerings viz. utility bill payment, etc.

3.2 **Website recharge**

3.2.1 The third party website will provide the option of JMRC Smart Card recharge:

a) The webpage of the website will prompt the commuter to enter his JMRC Smart Card no. This card number will be verified with the JMRC AFC server.

b) The commuter will also enter the amount to be recharged to his JMRC Smart Card. Current balance in the card will be obtained from the JMRC AFC server. Maximum possible recharge amount for this card will be defined on the basis of current balance in the card.

c) The amount equivalent to recharge amount will be debited from the debit card/credit card/net banking/wallet account. Card will be recharged logically equivalent to the deducted amount.

d) Website server will send this information (JMRC Smart Card no and recharge amount) to JMRC AFC Server. The format of the information to be send to JMRC AFC server shall be as defined in the interface document.

e) After receiving the information of the card recharge, the JMRC AFC server will reply the status of the transaction which can be processed, rejected or others.

f) JMRC will receive the corresponding credit on maximum in T+1 day on the basis of successful/failed transactions.

g) The website needs to be certified by issuers such as Entrust, VeriSign, and GeoTrustetc. for secure communication between the customers and their website. The communication between their server and JMRC AFC server also has be fully secured as mutually agreed.

h) The website will follow the standard procedures which may include, but not limited to sending proper mails to customers with the information related to the transaction initiated by the customers; providing prompt support to the customers etc.

3.2.2 The vendor shall extend topping of smart cards through mobile application.

3.3 The scope of the services to be provided by the Vendor:-

3.3.1 Vendor shall be responsible for delivery of service through any of the methods as defined in this section. All issues pertaining to hardware capacity/ software capability at the end of Vendor for delivering these services shall be addressed by them.
