A material deviation or reservation is one which affects in any substantial way the scope, quality, performance or administration of the works to be undertaken by the bidder under the contract, or which limits in any substantial way, the Employer's rights or the bidders obligations under the Contract as provided for in the Bid documents and / or is of an essential condition, the rectification of which would affect unfairly the competitive position of other bidders presenting substantially responsive bids at reasonable price.

16.3 If a bid is not substantially responsive to the requirements of the bid documents or if the working methods proposed by the bidder are considered impracticable, it will be rejected by the Employer, and will not subsequently be permitted to be made responsive by the bidder by correction or withdrawal of the non-conformity or infirmity.

16.4 The decision of the Engineer/Employer as to which of the bids are not substantially responsive or have impractical / methods or Programmes for execution shall be final.

Where a bidder's technical submittal has a major inadequacy, his bid will be considered to be non-compliant and will be rejected.

17.2 **Only those bids which are adequately responsive, conform to the eligibility conditions and technically acceptable will be eligible for opening of their financial bids.** Technically unacceptable / ineligible bids will not be eligible for consideration of their financial bids. The financial proposal shall be evaluated to determine the highest bid. Technically unacceptable bids shall not be considered for financial evaluation.

Date, time and venue of opening of financial bid shall be conveyed to the bidders who qualify in the technical bid evaluation. Information shall be conveyed by the E-Mail or shall be available at the JMRC/SPPP website

17.4 a) Offers, deviations and other factors, which are in excess of the requirements of the bid documents or otherwise will result in the accrual of unsolicited benefits to the Employer, shall not be taken into account in bid evaluation.

b) The JMRC reserves the right not to consider any deviation that in the sole discretion of the JMRC is found unacceptable. JMRC shall require such deviations to be withdrawn, for the unaccepted deviations. The evaluation subsequently will be made on the rates quoted for such items in original offer.

17.5 Price variation provisions applicable during the period of execution of the contract shall not be taken into account in bid evaluation.

17.6 Evaluation of financial proposal will be based on pricing schedule/quantities in Bill of Quantity (BOQ) and rates quoted. Any alteration in BOQ will not be given any cognizance.

18.1 Errors will be corrected by the Employer / Engineer as follows:

- a. Where there is a discrepancy between amounts in figures and in words, the amount in words will govern; and
- b. Where there is a discrepancy between the unit price and the total amount derived from the multiplication of the unit price and the quantity, the unit price as quoted will normally govern unless in the opinion of the Employer / Engineer there is an obviously gross misplacement of the decimal point in the unit price, in which event, the total amount as quoted will govern.
- c. If the rates are being asked to be quoted in percentage above/below vis-à-vis to the Estimated Cost and there arises a discrepancy in deciding the "above" and "below" words then the above/below mentioned in the WORDS will prevail. If contractor fails to mention above/below in words and figures both then the same shall be decided by the Quoted Amount mentioned (if any) by the contractor.
