PART-2**SPECIAL CONDITONS and TECHNICAL SPECIFICATION (USFD testing of rail/welds).**

1. Carrying out Through USFD testing of running Rails and Welds (excluding flange testing) including level crossings, SEJ's, Zone-I(lead portion of points & crossings), and scabbed rail, testing of all types of rails with only B-scan machines equipped with 9 channels SRT/DRT using 0° (4 MHz) and 70° (2 MHz) central forward & backward, 70° (2 MHz) gauge face corner forward & backward and 70° (2 MHz) field forward & backward probes and 37° (2 MHz) forward & backward probes for detecting bolt hole cracks by NBC (Need Based Concept) method under traffic conditions as per provisions of IR's "Revised Manual-2022 & Specifications for Ultrasonic Testing of Rails and Welds" & related instructions, duly marking defects, submission of daily reports and storing back-up data, as specified & directed with Contractor's USFD machine. Testing and reporting is to be done as per the Indian Railway Standard specification for Ultrasonic testing of Rails/Welds- Revised - 2020 and latest amendments of RDSO & Railway Board. In case of any conflict, the special conditions of the contract shall prevail
2. The contractor shall conduct hand probing of machined portion of all types of switches (2 tongue Rails and 2 stocks rails), scabbed rails wherever necessary as per the procedure laid in "Manual for Ultrasonic Testing of Rails and Welds- Revised 2022" with latest correction slips issued from time to time and as per Indian Railways Standard Specification for Ultrasonic testing of rails/welds- Revised-2020 with latest correction slips and instructions issued by Railway Board & RDSO from time to time as applicable to Rail testing.
3. The minimum defect detection level reliability percentage vis-a-vis size should satisfy clause mentioned in the technical specification. The capability of test system shall be verified before testing begins, and after change of operator/ machine and after every 1000 km of testing to ensure compliance of the specification. For this purpose, contractor will have to bring their machine and operators to RDSO/LKO for verifying the test system capability. This may be done using known rail defect method- where the test system runs over a test containing known defects of various sizes and types or by defect audit verification method, where numbers of rail defects detected by contractor during inspection run are audited by physical examination. For this purpose suitable method should be employed for example hand probing of rail length selected at random containing 5% of the detected defects and if required physical examination by breaking open the defects which were over reported / under reported / not reported in any of these two testing. In case it is considered necessary to carry out sizing of the flaws detected the same can be accomplished using procedure contained in Annexure-2 of Indian Railway Standard specification for Ultrasonic testing of Rails / welds Revised - 2020 and latest amendments.
4. Testing and reporting is to be done as per Indian Railway Standard specification for Ultrasonic testing of Rails/Welds- Revised - 2020 and manual

- for ultrasonic testing of rails and welds revised-2022 with latest amendments. In case of any conflict, the special conditions of the contract shall prevail.
5. The machine should be capable to detect the defects as given in the manual for ultrasonic testing of rails/welds revised-2022 along with Indian railway standard specification for ultrasonic testing of rail/welds revised-2020 issued by RDSO as amended from time to time.
 6. The USFD testing machine shall be maintained to the reliable condition for testing by periodical inspection of sensitivity and shall always be kept in good working condition. The accuracy of machine working shall be to the satisfaction of the Engineer-in-charge. The calibration of Ultrasonic flaw detector should be done as per Manual for Ultrasonic testing of Rails/Welds Revised -2022 and Indian railway standard specification for ultrasonic testing of rail / welds revised- 2020 issued by RDSO.
 7. The operators should have valid competency certificate for testing of rail/weld issued by RDSO. If the operators found to be working without the valid certificate at the time of inspection of the Engineer-in- charge, the testing done by the operator will be invalid.
 8. The tenderer shall have capabilities of carrying out assignments of Ultrasonic testing. The tenderer shall deploy NDT equipments e.g. Hand operated flaw detectors of digital ultrasonic single rail tester of B-scan facility confirming to Revised specification No.RDSO/M&C/NDT/128/2007 (B-Scan) Rev-IV, August 2021 dated 31.12.2022 and digital ultrasonic double rail tester of B-scan facility of specification No.RDSO/M&C/NDT/130/2007 (B-Scan) Rev-IV, August 2021 dated 31.12.2022 and revised STR No. M&C/NDT/131/2009 Rev-II, September 2021, testing should be carried out as per manual for ultra sonic testing rails/welds-revised 2022 along with correction slips issued and as per Indian Railways standard specification for ultrasonic testing of rails/welds-revised 2020 with amendments and any other instruction issued by RDSO from time to time.
 9. The Engineer-in-charge of the work here will be Manager (Civil) of JMRC.
 10. Overall monitoring of the contract performance will be done by GM (Civil) of JMRC. The instructions/interpretation of GM (Civil) will prevail in case of any contractual dispute between Engineer-in-charge and Contractor.
 11. One track kilometer is equal to two linear rail kilometers.
 12. Maximum length of track tested should be taken as 3 Km per day per SRT machine with two operators and 6 Km per day per DRT machine with two operators.
 13. The USFD Testing shall also cover testing of Alumino Thermit welds and Flash Butt welds falling in the test length like normal rail testing excluding flange testing and marking the defects accordingly.
 14. Test check of 10% at Manager (Civil) on fortnightly basis and 5% at General Manager (Civil) on monthly basis will be carried out within one month. In this length, 95% of the flaws detected should get confirmed and no new flaw or wrong flaw should be found during test check. In case, less than 95% of the flaws detected by the contractor are confirmed during the verification testing, a penalty of Rs.5000 per non-detection/wrong detection maybe levied. The decision of the Engineer-in- charge shall be the final in this regard.

15. In case of detection of any undetected flaw during test check by the JMRC, the length of track tested in that particular week will be required to be retested by the contractor without any extra payment. And also record of USFD operator will be kept who missed the flaw and operator who missed ten flaws in a year will be removed by JMRC and his approval will be withdrawn by RDSO and the firm will have to arrange another competent operator in his place. GM (Civil) shall act as third party to investigate whether the defect was detectable at the time USFD testing or not. The decision of GM (Civil) will be final and binding on the both party and this decision is not arbitrable.
16. Payment for the work done will be arranged by GM (Civil) JMRC, based on measurements recorded, documents submitted, Data of B- scan, test checks, penalty for overdue testing and compliance of other conditions of contract etc. Data of B-scan should be part of payment records and kept preserved as permanent records for three years period and in case of failure the same will be analyzed to take action accordingly.
17. Software to view the B-scan data should be provided by the contractor without any extra payment. B-Scan data record along with its software & its storage device which shall be External Hard Disks of sufficient capacity. Sufficient numbers of storage devices have to be made available by the contractor, at its own cost, to ensure storage of entire A-Scan & B-Scan data record of entire work of contract duration which should be retrievable at wherever required along with back up storage devices for making the USFD data available in main office in two sets upto three years as per Railway Board letter No. Track/21/2004/0902/7 Vol.III dated. 20.06.2022. Complete soft copy of B-Scan & A-Scan records should be made available to JMRC at the end of every week. No additional payment would be made by JMRC for this condition.
18. Contractor's USFD team will take immediate action to intimate the concerned JE/USFD/P.Way for imposing speed restrictions in case of any IMR rail/weld (head and also web up-to neutral axis) flaw is reported as per USFD Revised manual- 2022 para No.6.4(S.No.1).
19. Daily test reports should be made with the test results in the format given by the JMRC duly signed by the Contractor's Engineer and submit to the Engineer-in- charge on next day of testing for necessary action. Daily test report should contain all the items as listed in 10.1.1 of the Technical Specifications of Indian Railway Standard specification for Ultrasonic testing of Rails/Welds- Revised - 2020. However the flaws classified as 'IMRR' and IMRW' rail/weld defects requiring a speed restriction and removal should be reported immediately upon detection to JE/P.Way.
20. The agency/firm will have to use Single Rail Tester (SRT) and Double Rail Tester (DRT) capable of B-Scan recording with provision of geo tagging and data stamping in the B Scan with facility for location stamping in Km/Mtr/Cm by digital encoder(odometer), GPS co-ordinates (latitude and longitude) recording. Equipment shall also have time stamping facility duly synchronized with GPS satellite clock on at least half hourly basis. Record of synchronization to be stored in the equipment.
21. The contractor shall be permitted to make use of the facility if available in SSE/P.way office/Rest room for battery charging at free of cost. If such facility

- is not available /not feasible, contractor shall make his own arrangements. No additional payment shall be made on this account.
22. The tenderer shall make arrangements for accommodation for the stay of the labour during the period of contract.
23. The tenderer shall make arrangements for conveyance to the site of testing.
24. The testing shall be carried out during night shift on mainline of JMRC after proper PTW/block made available by J.En P.Way. The timings for night shift should be from 23:00 Hrs to 04:00 Hrs. Testing in Depot of JMRC may be carried out during day/general shift. All the materials should be removed by contractor staff before the end of PTW/block from the track of JMRC.
25. The contractor / representative / staff shall be conversant with the area and working on track as regards safety of traffic, personnel safety and shall have to give a certificate to this effect to the Engineer-in- charge of the work. No compensation is payable on any account. Contractor should indemnify the JMRC for any damage to the property or accident to a person. It is sole responsibility of the contractor or for safety of his labour, tools and plants materials while executing the work.
26. The Contactor shall provide the required safety equipment PPE (Personal Protection Equipment such as Helmet, Safety shoes, Orange Colour luminous Jacket, whistle etc to his USFD Operators & laborers. Work will not resume untill all staff members have the above safety equipment. Contractor shall ensure that all his work men are given equipment as is necessary to work in all adverse conditions of weather.
27. The list of the technicians, operators and other assistants proposed to be deployed for testing shall be given to the Engineer-in-charge. The semi-skilled and skilled technician/labours should have the competency certificate issued by firm, with proper training for handling of machine and accessories. They should have minimum qualification of ITI any trades compulsory and working knowledge of USFD testing and also safety rules during testing. Each operator should have minimum semi-skilled and skilled technician/labours four numbers as per testing activities of rails, welds, SEJ's, Turnouts (points & crossings) to be present without fail for quality of testing and safety of persons as well as machines.
28. While testing is done nearer to the track circuited / near HT traction, the contractor shall make insulations and shall not cause any failure of circuits. For such failures, the actual losses/damages as fixed by the JMRC shall be borne by the contractor. JMRC will suitably decide the penalty for such type of failures based on ground realities. The work may be carried out under train traffic and also in an electrical territory. The contractor should take all the cautions for safe passage of train traffic moving on the line where work is being carried out and also on adjacent lines. He should also ensure the safe working his own labours, equipments and JMRC property. In case of any damage to the JMRC property, passenger and his own labours, tools & equipments due to contractor's negligence, he will be fully responsible for such damages. Annexure D: Additional Conditions of Contract**1. Correction of arithmetical errors (Rule-64 of RTPPR-2013)**

Provided that the Financial Bid is substantially responsive, the Procuring Entity will correct arithmetical errors during evaluation of Financial Bids on the following basis:

- i. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the option of the Procuring Entity there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;
- ii. If there is an error in total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- iii. If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subjected to (i) and (ii) above

If the Bidder that submitted the lowest evaluated Bid does not accepted the correction of errors, its Bid shall be disqualified and its Bid Security shall be forfeited or its Bid Securing Declaration shall be executed.

3. Dividing quantities among more than one Bidder at the time of award (In case of procurement of Goods) (Rule-74 of RTPPR-2013)

As a general rule all the quantities of the subject matter of procurement shall be procured from the Bidder, whose Bid is accepted. However, when it is considered that the quantity of the subject matter of procurement to be procured is very large and it may not be in the capacity of the Bidder, whose Bid is accepted, to deliver the entire quantity or when it is considered that the subject matter of procurement to be procured is of critical and vital nature, in such cases, the quantity may be divided between the Bidder, whose Bid is accepted and the second lowest Bidder or even more Bidders in that order, in a fair, transparent and equitable manner at the rates of the Bidder, whose Bid is accepted.
