- (9) Date of Technical Bid opening: 21.07.2026 at 11:30 Hrs.

Sr. No.	Clause	Description	Bidder's Query	JMRC Reply
1	5.1 (4)	Scope of Work shall also include scheduling of message and live announcement from central server and local level.	Since, the operation of work is strictly related to creation of OCC-level servers, functionalities such as scheduling of messages and live announcement from the station MMI are subject to working of station level servers	(No change) Bid should ensure all liabilities requires to be fulfilled the Tender conditions.
2	5.1 (5)	For Live announcement from Central Server and Local Server if any mike, sound card or any hardware etc. are required, the contractor has to provide these hardware and live all announcement services	Since the scope of work is limited to OCC level, the hardware requirements (if any) for stations are subject to station level only and shall be accounted for additionally. Any existing requirement due to failure/missing of parts prior to execution of works will be noted, any requirements arriving post execution shall be fulfilled for OCC Level only.	(No change) Bid should ensure all liabilities requires to be fulfilled the Tender conditions.
2		General query	Since a working solution (APIS software) is already implemented, system health, alarm, or any other data/functionalities, if available, with APIS will be provided only.	(No change) Bid should ensure all liabilities requires to be fulfilled the Tender conditions.
3		General query	'Fields' term corresponds to the OCC level only.	(No change) Bid should ensure all liabilities requires to be fulfilled the Tender conditions.

4		General query	It is assumed that TCP/IP and RTP packets are allowed through the networking equipment, and the network, in totality, is healthy and free of viruses.	(No change) Bid should ensure all liabilities requires to be fulfilled the Tender conditions.
5		General query	All functionalities working in the current server shall be retained. Therefore, it is assumed that a minimum of one OCC server is able to achieve all functionalities within the scope of work. (A survey report will also be prepared before starting the execution.)	(No change) Bid should ensure all liabilities requires to be fulfilled the Tender conditions.
6		General query	Price quoted for budget is about one year old. The price of new/compatible Computer/Server/Storage hardware has increased multi-fold since then. Bidding for said equipments shall be done keeping the current market prices in account.	(No change) Bid should ensure all liabilities requires to be fulfilled the Tender conditions.
7		General query	As a legacy system is being replaced, the interface cards of the current server can be used to achieve the said functionalities as mentioned in the scope of work.	(No change) Bid should ensure all liabilities requires to be fulfilled the Tender conditions.
