

The first lot of Jaipur Metro Coaches rolls out of BEML on 29.04.2013.  
To reach Jaipur around 20<sup>th</sup> May, 2013

The first train-set of the Jaipur Metro Rail, comprising four cars, is ready and has on the night of 29<sup>th</sup> April left the factory at Bharat Earth Movers Limited (BEML) Bangalore for Jaipur. It is being transported on special trailers via road and will take around 20 days to reach Jaipur.

Earlier, on Saturday the 27th April, after a series of intricate tests, it rolled on a test track in the BEML factory to the satisfaction of the inspection team. Since it is the first metro train which has been manufactured and also designed in India by any Indian company, the entire staff of BEML celebrated the roll-out of the train with great gusto and pride. Representatives of Jaipur Metro Rail Corporation as well as Delhi Metro Rail Corporation and RITES were present at the momentous occasion. It is a matter of great pride for Jaipur Metro that it will be the first to operate a state-of-the-art Metro train that is not only manufactured, but also designed in India by an Indian Company.
